

IN THE CLAIMS

Please amend claim1, as follows:

1. (Once Amended) A telecommunications messaging system,
2 comprising:
3 a wireless subscriber unit;
4 a base station in a first communication with said wireless subscriber unit;
5 and
6 a mobile switching center for causing said base station to engage in
7 service negotiation with said wireless subscriber unit, said service negotiation for
8 determining a service configuration for a second communication between said
base station and said wireless subscriber unit.
